Revision 7 of Annex H was withdrawn before ratification; its host table must not be used. Appendix D (clock incidents) was adopted separately (scope sheet of authority_matrix.xlsx, rev7-appendix-D).

Appendix D: for journal sources that record a host, an event whose reported timestamp lies in [from_utc, to_utc) of an adopted incident for that host was stamped skew_seconds fast; subtract the skew. Per (host, from_utc) the highest rev decides; status rejected rows do not apply.
