Experimentation Council
Statistics Governance Memo W26-3 (adopted 2026-10-12)
Applies to the WAVE-26Q3 readout and later readouts.
This memo withdraws Table P-0 of memo W26-1 and supersedes Table A-0.
Table P-1 gives the decision parameters in force.
Table A-1 amends the metric registry sheet named by the analysis profile, per experiment and metric.
An amendment IN FORCE replaces the named field; a RESCINDED amendment has no effect.
Amendments scoped ALL apply to every experiment first; experiment amendments apply after them, by amendment id.
Table X-1 records rulings on experiment windows. Table U-1 records rulings on unit eligibility.
A REINSTATE ruling treats the unit as a human account; an EXCLUDE ruling removes the unit from every experiment.
Table C-1 limits how many treatment arms of one owner team may ship in this wave; Table C-0 is withdrawn.
